Progression Criteria - Revised Scheme May 2022

ASSESSMENT GUIDE & RUBRIC – Progression from Lecturer Below the Bar to Above the Bar

The following document contains guidance and a detailed Rubric relating to application for progression from Lecturer Below the Bar to Above the Bar i.e. **Progression Across the Merit Bar (PAMB) under a revised policy**. Please refer to the formal 'Progression Across the Merit Bar Policy' as approved by GB (15th March 2022) to which this guide refers i.e. **this guide should not be considered as a replacement for the formal policy**. This guide aims to provide transparency and guidance on the standards applied in assessing applications for progression under the approved PAMB Policy. It also provides clarity on expectations and is a source of guidance for those engaged in continuous professional development with a view to future academic progression. In such development contexts, it is encouraged that this document is used as a guide to inform discussion with your mentor.

When making an application for PAMB applicants should supply supporting evidence demonstrating their level of achievement across the range of areas set out in the PAMB Policy. It is recognised, however, that not all the activities and responsibilities in each section listed will be fulfilled by every applicant. Applicants should therefore articulate, supported by appropriate evidence, where they consider their major and minor contributions lie in each of the three Criteria Categories set out in the application. In order to progress across the Merit Bar, successful candidates will be expected to achieve at least a **good** level of performance under all three criteria categories: Learning and Teaching, Research and Innovation, and Contribution to Academic Citizenship and Engagement. Candidates who fail to reach such a level of performance shall not progress.

Candidates for *accelerated* Progression across the Merit Bar would be expected to achieve an *exemplary* level of performance under Learning and Teaching criteria, Research and Innovation criteria, as well as Contribution to Academic Citizenship and Engagement criteria.

Exemplary - A candidate shows contributions and achievements of outstanding quality and breadth across all criteria in a sustained and regular manner.

Good - A candidate shows regular contributions and achievements of good quality and breadth by satisfying all essential criteria and evidencing consistent performance in the criteria outside those listed as essential criteria.

Developing - A candidate satisfies all of the essential criteria but does not demonstrate a sustained or regular achievement in the criteria outside the listed essential criteria. Some evidence of consistent achievement reflective of a growing or emerging profile of achievement.

Premature Application - A candidate who does not satisfy all of the essential criteria at Stage One or who does not demonstrate evidence of achievement and/ or a consistency of achievement in criteria outside the essential criteria at Stage Two.

The top five peer reviewed publications or research outputs submitted will be sent to the External Reviewer.

Criteria Category Areas and related sub criteria structure.

The criteria associated with the three Criteria areas for Progression Across the Merit Bar have been structured into sub-categories to assist applicants in structuring their evidence and the Board in assessing that evidence. A rating will be given across the three category areas: Learning & Teaching, Research & Innovation and Contribution to Academic Citizenship and Engagement.

A detailed rubric can be found on pages 04 – 18 of this Guide followed by a map of the criteria under each of the three assessment areas.
